ABOUT ME

I obtained a diploma in Computer Science and Telecommunications from Alessandro Volta High School in Naples. During my studies, I discovered a passion for graphic design and web development, which inspired me to continue along this path. To further deepen this passion, I followed a training course on the Scrimba platform, where I specialized in frontend web development.
My ambition is to become a frontend developer, whether in the field of smartphone applications, PC applications, or applications that adapt to both contexts. I aim to improve my knowledge of well-known frameworks, as well as learn new ones and acquire all the techniques necessary for the optimal development of web solutions.

WORK EXPERIENCE

Decò Supermarkets Naples, Italy

Sales Assistant / Logistics Assistant
03/01/2022 – 30/04/2023

- Management of warehouse stock storage activities
- Quality and quantity control of incoming goods
- Recording and updating inventory, monitoring stock levels and reporting any shortages
- Issuing and managing supplier invoices for incoming and outgoing products
- Entering near-expiry products into the management system, with automatic monitoring through notifications
- Collaborating with the sales team to ensure a consistent and well-organized flow of goods from the warehouse to the shelves
